

## English

This term we will be looking at different genres of books, including fiction, poetry and non-chronological reports.

We have an exciting new change to our timetable and will now have a daily focus on phonics and guided reading. This means that your child will have an adult hear them read every single day.

Please continue to hear your child read their book every day and sign the reading record when they have finished reading it.

## Maths

The children will be reviewing the months of the year and the days of the week.

We will be focussing on number bonds to 20 using addition and subtraction.

Also, we will begin to solve number sentences with missing parts.

$$14 = \underline{\quad} + 9$$

## Remarkable Recycling &

## Spring has Sprung!

## Spring Term

## Year 1

## Design and Technology

As part of our topic, Remarkable Recycling, we are giving the children a challenge to design and make a new hutch for Snuggles the rabbit. We will be using the recycling materials brought in and using creativity and design skills.

## Handwriting

The children now have an opportunity to practise handwriting daily each morning. We link these words to the letters taught in weekly lessons and high-frequency words. We continue to focus on lead-in strokes and finger spaces between the words.

## Topic

Our first topic, Remarkable Recycling, will focus on the importance of how and why we recycle. We will be learning about and sorting different materials.

In our topic Spring Has Sprung we will be identifying and naming a variety of wild and garden plants. We will be describing the basic structures of plants and trees.
