

English

The children will be learning about traditional stories, poetry and explanation texts. They will be learning how to use different types of punctuation within their writing and how to join their handwriting. They will continue to develop their understanding of nouns, verbs and adjectives.

Please hear your child read their reading book every day and sign the reading record when they have finished reading it.

Maths

The children will be focussing on the number system from 0-100 and beyond and learning about place value.

They will be focussing on finding doubles and halves of numbers, learning addition and subtraction strategies and how to use these skills to solve problems. The children will also be learning their 2, 5, 10 and 3 times tables.

Year 2

Autumn Term

Spellings

Spellings will be sent home on a Wednesday to be tested the following Wednesday. These will consist of the 100 frequency words and focus on different spelling rules.

Computing

The children will have a clear understanding of algorithms as a sequence of instructions. They will use these to create a simple program and be able to spot and fix (debug) errors.

Topic

The children will be learning about Neil Armstrong and his achievements. They will also be learning about Earth and the Solar System. In Science the children will be asking questions and exploring materials and their properties.

In PE the children will be focussing on Dance and Gymnastics. Please ensure their kits are in school at all times.
