Remote Learning Survey Feedback

Thanks to all of you who have replied to our survey - it's very useful for us to have this information to help make plans for the future.
Most of your comments were really positive and supportive - we know it's not been easy so thank you so much for all you've done to engage with learning at home during lockdown.

<i>You asked...</i>	<i>Answer</i>
Could we have smaller group sessions instead of 1 session with the whole class?	Unfortunately we simply don't have enough staff to do this. School has been open throughout lockdown for children of critical workers and vulnerable children, and there have been staff working with these children in year group bubbles. Other staff have been working on preparing remote learning for children at home, providing feedback on this and dealing with enquiries and correspondence from parents. Setting up small group sessions for all children every week would take up a lot of the time that needs to be given to managing remote learning
Could the school lend us a laptop?	Although you may have heard that the government has been giving schools laptops to hand out during lockdown, Infants schools have not been allocated any devices. We did request support but haven't been provided with any laptops and don't have any spare in school
We'd really like to have live lessons!	Year 1 did trial live lessons. However, a large number of children don't have access to a device - many are sharing with siblings also learning from home, with parents who are working, or have unreliable internet. It would not be fair to offer this to some and not all and as many are unable to access live lessons at the scheduled time we made the decision to use other remote learning methods as much as possible
