

Watford Field School (Infant & Nursery)
PE and Sports Premium 2020-2021

Funding for 2020/2021 - £17,300

The Government provides additional funding for Physical Education (PE) and sport in schools. This funding is to be used to improve the quality and breadth of PE and sport provision resulting in increased numbers of pupils developing healthy and active life styles.

Watford Field School has received £16,000 plus an extra £10 per pupil in Year 1 and Year 2 totalling £17,300. This money will be used to ensure PE and sport is at the heart of school life to raise achievement for all young children

Academic Year 2020 - 2021		Total fund allocated: £17,300			
PE and Sport Premium Key Outcome Indicator	School Focus/ Planned Impact	Funding	Evidence	Actual Impact	Sustainability/ Next Steps
The engagement of all pupils in regular physical activity – kick starting healthy active lifestyles	Sports Coaches to introduce more varied team game activities such as basketball, hockey and cricket during the lunch hour. This will ensure children are experiencing a range of sporting opportunities and will improve their skills within each of these sports. It will help children to develop key skills in being part of team and will promote physical fitness throughout the lunchtime break.	Sports Coach 1hour every lunchtime £5,510	Pupil engagement in sporting activities increased. Children learn new games to play with their friends. Pupil voice	Children have developed a range of skills within different sports and can join in confidently with different sports depending on their passion/interests. The children have learnt key skills of how to play games as part of a team and are playing co-operatively with each other.	Continue to implement a variety of team games during lunchtimes, possibly link to six super sports to provide children with an opportunity to rehearse skills learnt in these sessions.
	Our new sports partnership Three Rivers and Watford delivered sessions to the children based around 'play leaders' and how to encourage all children to play a variety of differentiated games. This will ensure the children will know games to keep themselves active when outside. They also delivered Healthy Heroes sessions to the children, explaining why it's important to keep active and maintain a healthy life style.	Cost of a yearly membership: £1,000	Pupils were playing more active games in their year group bubbles and were seen initiating games they were taught by the coaches. The children reflected on their learning from the Sports coaches during Science sessions based around healthy living and eating.	The children are able to start their own games on the playground at lunch times and break times. The discussion with the Sports Coaches based around healthy eating and healthy living lead into discussions about healthy eating within lunch boxes etc and the children were making healthier choices with their eating habits.	Although the children were taught interesting games to play with their peers, this was limited to their year group bubbles due to COVID. My next steps is to have the new Year 2 children trained in being play leaders and to lead in playing games with Year 1 and Reception (restrictions permitting).

			Pupil voice		I will also ensure the new Reception children receive the Healthy Heroes session.
The profile of PE and sport being raised across the school as a tool for whole school improvement	Super Star Sports to deliver some additional PE sessions to the children. These sessions will increase children's physical activity and introduce the children to a variety of new sports which will enable them to learn new sporting skills. EYFS and KS1 have 2 different sessions with Super Star Sports on a fortnightly rota. The children take part in learning the skills for a different sport each half term e.g. basketball, archery, circuit training and handball. Children also take part in some planned interventions to help support and develop children's gross motor skills.	£8,352	All children have learnt new sports skills and have increased their physical fitness. They have access to sports they may never encounter outside of school and are enjoying these sessions. The children who are being taken for gross motor skills have made progress with their skills from their starting points.	The children have experienced participating in new sports and have learnt new sports skills. The children have built excellent relationships with the coaches as their presence in school is not only in PE lessons but also at lunch time as lunch time staff too. This has raised the profile of PE and sport as a subject at our school.	For the next academic year, we have decided to continue our partnership with Super Star Sports. All classes will have sessions weekly with the coaches instead of fortnightly. We will continue to use Super Star Sports at lunchtimes to enhance the lunch hour and provide the children with an opportunity to learn new sporting skills.
	Class teachers to be fully imbedding iMoves into their PE lessons. This programme provides easily accessible lesson plans ready for teachers to download and also provides 'active blasts' that teachers can complete with children during the day as brain breaks if needed.	Membership ongoing from previous year. 3 year subscription due to end this year. £499.20 per year	Staff have access to high quality teaching and learning resources and are implementing them into PE lessons. Lesson observations Pupil voice	Most teachers feel confident in using I moves and are annotating their planning to show lesson evaluations and pupil progress within lessons.	Having researched the most up to date schemes, we have decided to use GetSet4PE this year and will cancel using I Moves. As a trial, members of staff have tried 2 sessions with their current classes and feel this scheme is more current and reflective of our school.
Increased confidence, knowledge and skills of all staff in teaching PE and sport	Through our Sports Partnership, the class teachers will have the opportunity to have sessions modelled to them with their classes. PE Subject Leader to attend the PE Conference sharing key information on PE and sporting opportunities with the whole team.	School Sports Partnership – £ 1000	Staff have access to high quality teaching and learning resources and are implementing them into PE lessons. Lesson observations Pupil voice	Increase in staff's knowledge and understanding of how to deliver PE confidently and to use the resources that are available to them effectively.	Consult with staff and evaluate the provision that has been provided through Three River and Watford Schools Sports Partnership.

<p>Increased participation in competitive sport</p>	<p>This year due to coronavirus restrictions, the children have been unable to take part in competitive sports with other schools. This is something that our Sports Partnership usually provides opportunities for. Their aim, restrictions permitted, is to begin these once again in the academic year of 2021-2022.</p>
